Asad Fareed

Lahore, Punjab Pakistan
asadfareed047@gmail.com | 03039466175

Experienced Mobile Application Developer with over 5 years of hands-on experience in designing, developing, and deploying robust mobile solutions across Android (Java/Kotlin) and Flutter platforms. Proven expertise in building scalable applications for domains including AFC (Automatic Fare Collection), BSS (Business Support Systems), and Machine Learning.
Adept at developing and integrating SDKs, working with RESTful APIs, and implementing facial recognition, anti-spoofing models, and other ML-based features. Strong understanding of MVVM, Clean Architecture, and CI/CD pipelines using Git, and Firebase tools.
Passionate about delivering high-performance, user-centric applications with a focus on security, maintainability, and performance optimization.

Quaid Public School, Burewala / Matriculation (2013)

Projects

GRMS | Punjab Information Technology Board | Jun 2023 - Jul 2023 | https://play.google.com/store/apps/details?id=pk.pitb.gov.grms&hl=en&gl=US
The Government Residences Management System (GRMS) is an advanced online platform designed to enhance the efficiency and convenience of government officers and officials. With a user-centric approach, GRMS provides seamless access to essential services with just a single click. This system revolutionizes the way registration for allotment, house reservation, resident profiling, and complaint resolution are handled, ensuring transparency and a streamlined process.

SAAF PUNJAB IRIS | Punjab Information Technology Board | Mar 2023 - May 2023 | https://play.google.com/store/apps/details?id=pk.gov.pitb.saafpunjab.iris&hl=en&gl=US
Saaf Punjab IRIS is a mobile based monitoring performa for Waste Management Companies developed by PITB. This is used by WMC to evaluate daily attendance of supervisors and workers using their IRIS data.

Saaf Punjab | Punjab Information Technology Board | Jan 2023 - Mar 2023 | https://play.google.com/store/apps/details?id=pk.pitb.gov.saafpunjabfacial&hl=en&gl=US
Employee Registration:
• Register worker with five different face poses for accurate recognition

Facial Attendance:
• Captures facial attendance with date-time stamp along with necessary employee data i.e Identity, assigned location, and shift.

Fool Proof Attendance:
• Ensures the worker's presence within the radius of the assigned.

Location(UC) for attendance
• Helps in shift management by marking the attendance in assigned shift time only.

Works in Rural/Remote Areas Internet unavailability:
• Enable supervisor to mark attendance offline in case of non-availability of the internet for 24 hours.

Punjab Masstransit Authority | Punjab Information Technology Board | Apr 2022 - Present
| https://play.google.com/store/apps/details?id=pk.pitb.punjab.masstransit.punjab_masstransit_authority
Transit Punjab is an application that provides real-time information about public transportation in Punjab. This application helps users plan their journey, get live updates on arrival and departure times, and access details of the transit network. The app also provides access to real-time information about delays, disruptions, and schedule changes. Transit Punjab App helps users save time and money by eliminating the need to wait at a bus stop or metro station for a delayed train.

Metrotap | Horizam Tech | May 2021 - Dec 2021 | https://play.google.com/store/apps/details?id=com.horizam.MetroTap
| Tools: Android Studio, NFC card
MetroTap is the new instant innovative way to share your contact information such as social media, websites, payments and more. By tapping your Tap on the sweet spot of their phone you have made an instant connection. I worked on this project along with other team members and implemented features and fixed bugs. App is published on playstore.

LatPrep | May 2021 - Jul 2021 | https://play.google.com/store/apps/details?id=com.bigbird.development.latprep | Tools: Android Studio
LAT exam is conducted by the Higher Education Commission of Pakistan (HEC). It gives you access to comprehensive study material for the preparation of all the subjects. The most fantastic feature of LAPPREP.PK is the availability of Mock Exams. You can test your knowledge and level of preparation through these practice exams. All the mock exams have been cautiously designed, keeping in view the past paper trends. All the data are available on LATPREP.PK, which is updated regularly.

Find New Friends | Horizam Tech | Jan 2021 - Apr 2021 | Tools: Android Studio
Find New Friends (FNF) is a social app where users can create a profile and can create multiple groups. They can merge these groups with
other users' groups. When there is a match a chat of both group participants created where they can share texts and Photos. This app is under

development. I have started this project and working on it individually.

Skills used for Android Application:
- Firebase
- Fragments
- Inter Fragments Communication
- Git Hub External libraries
- RecyclerViews
- Material Design
